Respected Madam,

We appreciate the great work Central Chinmaya Mission Trust is doing in Covid 19 relief in India. We thank you and your team in showing interest to help the Kolhapur district administration in Covid management.

We, as a district administration in Kolhapur are also working with our health workers and doctors, both in private and public, to contain and manage the spread of Corona in the district. We were successful in our district wide work only with the help of various non governmental and philonthropic organizations during first wave. However during this second wave because of the changed nature of mutant virus the situation is becoming more serious and need to reach larger group of philanthropic organizations .

At present we have more than 15000 active patients in the district with daily addition of around 1000 new positives.

We have been made to understand that Central Chinmaya Mission Trust is in the process of providing some covid 19 relief material and medical help for hospitals in Kolhapur district.

We, hereby request you to provide the material as per attached list for covid 19 management in Kolhapur district.

Thanking You,

Looking forward for your kind help.

With Best Regards

Yours

(Daulat Desai)

Collector, Kolhapur &  
President, District Disaster  
Management Authority Kolhapur

To,

Manisha Khemlani

CEO, Central Chinmaya Mission Trust
